

START HERE, FINISH THERE.

The Alamo Colleges have numerous transfer agreements with four-year colleges and universities. These agreements are called Transfer Advising Guides, or TAGs. TAGs help guide you on which required courses will transfer from Alamo Colleges to your 4-year college or university.

The first step is to select a TAG from a university you want to attend and which is offered fully-online by one of the Colleges from the list below. By following a TAG, you can skip the guesswork with help from your certified advisor and seamlessly complete your bachelor's degree.
