Grades of A thru D are passing for San Antonio College. However, a course with a grade of D will not be transferable to another college or university. Pass with a C or higher. To determine the number of college hours earned, simply add the second number of all of the passed college courses. (Ex. ENGL 1301 + HIST 1301 = 3+3 = 6 college hours) Courses in green represent that needed courses to complete the core-curriculum, which all Texas public universities are required to accept.
