

Partner with Cyber P-TECH USA

Mentor Induction Program

Connect your industry and expertise with the first Cyber P-TECH in San Antonio!

What is Cyber PTECH USA?

Located in Southeast San Antonio, minutes from the AT&T center, Cyber P-TECH USA, @ Sam Houston HS is the first Pathways in Technology Early College offering students the opportunity to earn work place skills, certifications, and an Associates of Applied Science. The core element of a P-TECH includes, collaboration among the high school, industry, and institution of higher education in developing and sustaining; aligned pathways with labor market demands, project based learning with transferable college credits, and a comprehensive support system for students

Industry partners for Cyber P-TECH USA include: Accenture Federal Services, DC Industries, Mims Institute, and Tech Skills on Wheels.

Our goal?

Our goal at Cyber P-TECH USA is to ensure all Cyber P-TECH students are paired with a mentor that is committed to being a trusted advisor, guide, encourager, and supporter of our students.

How can you or your company get involved?

Interested volunteer mentors that are willing to commit to meet with their mentee on campus 1-2 times per month will need to complete a background check, register with SAISD volunteer program, and attend Mentor Training.

Mentor Induction Program

Other Ways to get involved:

- **Partner with Cyber P-TECH USA on Industry Problem Based Learning**
 - You provide a relevant industry problem within your company. With the guidance of our teachers, your industry background, and focused curriculum alignment our students work to solve the problem.
- **Guest Speaker Opportunities/ Lunch and Learns**
 - You are invited to our campus to speak with small groups, a particular class or grade level of students to discuss your industry, education/ career path, professional or technical skills.
- **Job Shadowing Days/ Site Visits/Field Experiences**
 - Cyber P-TECH USA students can come to your location to shadow, experience, or visit your particular career field while learning about your company and industry.
- **Internships**
 - Cyber P-TECH USA students can intern on-site.
- **Externships**
 - Host Cyber P-TECH USA teachers at your site to learn about the industry in order to integrate the knowledge and experience into the classroom.
- **Come teach a class**
 - There is nothing like students learning first hand from individuals that work daily in the cyber industry. You can spend a day or more teaching a specialized lesson relevant to the latest trends in industry.

There are many ways to get involved at Cyber P-TECH USA!

We offer many clubs including Chess, Cyber Patriots, and Robotics. If you are unsure about the time commitment but still would like to get involved please email **Ashlyn Barrientes, P-TECH Director**, at aparrish1@saisd.net.

Please proceed to app-garden for volunteer clearance:
