

Academic Success Workshops Student Learning Assistance Center

Small group workshops are scheduled each month during the semester and conducted by our tutoring staff. The workshop schedule can be viewed at www.alamo.edu/sac/slac/workshops. Since our staff is currently working remotely, the workshops will be conducted using Zoom. Students click on the provided links to join the Zoom session for the workshop.

Students can request a one-on-one workshop with a tutor. Faculty members can also request a workshop be conducted for their class. Requests for workshops at times other than what is on the semester schedule can be made by emailing our staff at sac-tutoring@alamo.edu. Please indicate which workshop (see topics below) and what day/time to have it conducted.

Our remote staff will check our tutor’s work schedules to find a tutor that is free at the requested time and schedule the appointment.

Topics covered

The S.L.A.C. offers a variety of workshops to help students succeed. We are always looking to add new workshops to the list. If there is a topic you would like to see covered, please let us know and we can have our tutors develop a workshop to address the topic.
