Workshop Descriptions

Every Day Counts

Parents will learn how to help improve their children's daily attendance. Parents will get tips on how to prevent legal intervention and resolve attendance-related disputes.

Start Planning for College Now!

The journey to college begins in elementary school and continues through graduation! Learn what it means to be college- and career-ready and what steps you and your children need to take now to be successful. In this interactive workshop, parents will also learn how to talk to their children about college and career goals, how to take responsibility for guiding their children's interest and talents, how to utilize available resources, and more!

Count Me In!

What makes it difficult to get your kids to school on time? What can make it easier? In this session, parents will learn the importance of daily attendance. Tips will be provided on how to motivate children to attend school and be on time every day.

Jingle in Your Pocket: More bang for your holiday buck

Parents will learn how to create a holiday budget and how to use different methods of saving when shopping for holiday gifts and events.

Healthy, Easy, and Quick Holiday Meals

Join us for a live and interactive food demonstration featuring delicious and budget-friendly holiday recipes. Today's menu includes turkey and cranberry dishes. Yum! This session will be led by certified chefs and nutrition professionals.

Setting Goals for the New Year

Make your New Year's resolutions a family affair! Create your family's goals for the year and learn how to accomplish them together.

Special Ed 101

Parents will learn the ins and outs of the testing, evaluation, and planning tools available through the Special Education program.

The Special Education Services Department supports students with disabilities through a rigorous and nurturing learning environment, high-quality instruction, and support services for the entire family that enable all students to reach their full potential.

Building Your Child's Self Image

The workshop will provide parents with information and resources on how to overcome and correct unproductive habits that limit their children's educational and social performance. You will discover how parents have the greatest influence on a child's belief in himself or herself.
