Phoenix Middle College Students Get a Chance to Shine

This month, students from Phoenix Middle College had the opportunity to participate in an SAISD marketing photo shoot. We had students from Welding, Autobody Collision, and Aircraft Mechanics

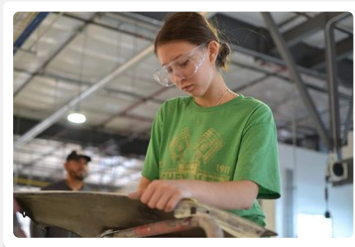

participate. We are excited to see our new marketing materials to be able to recruit more students to our amazing program!

Our students love that they can complete their high school diploma while they get their college classes in the trades paid for. Do you know someone who would like to join? Share the QR code below with them!

Student Highlight: Honey Sanchez

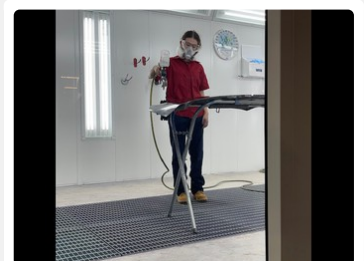

Honey Sanchez is a senior this year. She is studying autobody collision and her professors say she is excelling in the class. They are so impressed by her level of skill and commitment that they advocated for her to get an extra class this semester. Honey enjoys working on projects and doesn't mind getting dirty! She's looking forward to next semester when she gets to take Autobody Welding and can't wait to keep learning! We're so proud of you Honey!

Honey was recently featured on the St. Phillips facebook page where they posted this picture and showed her working on her project.

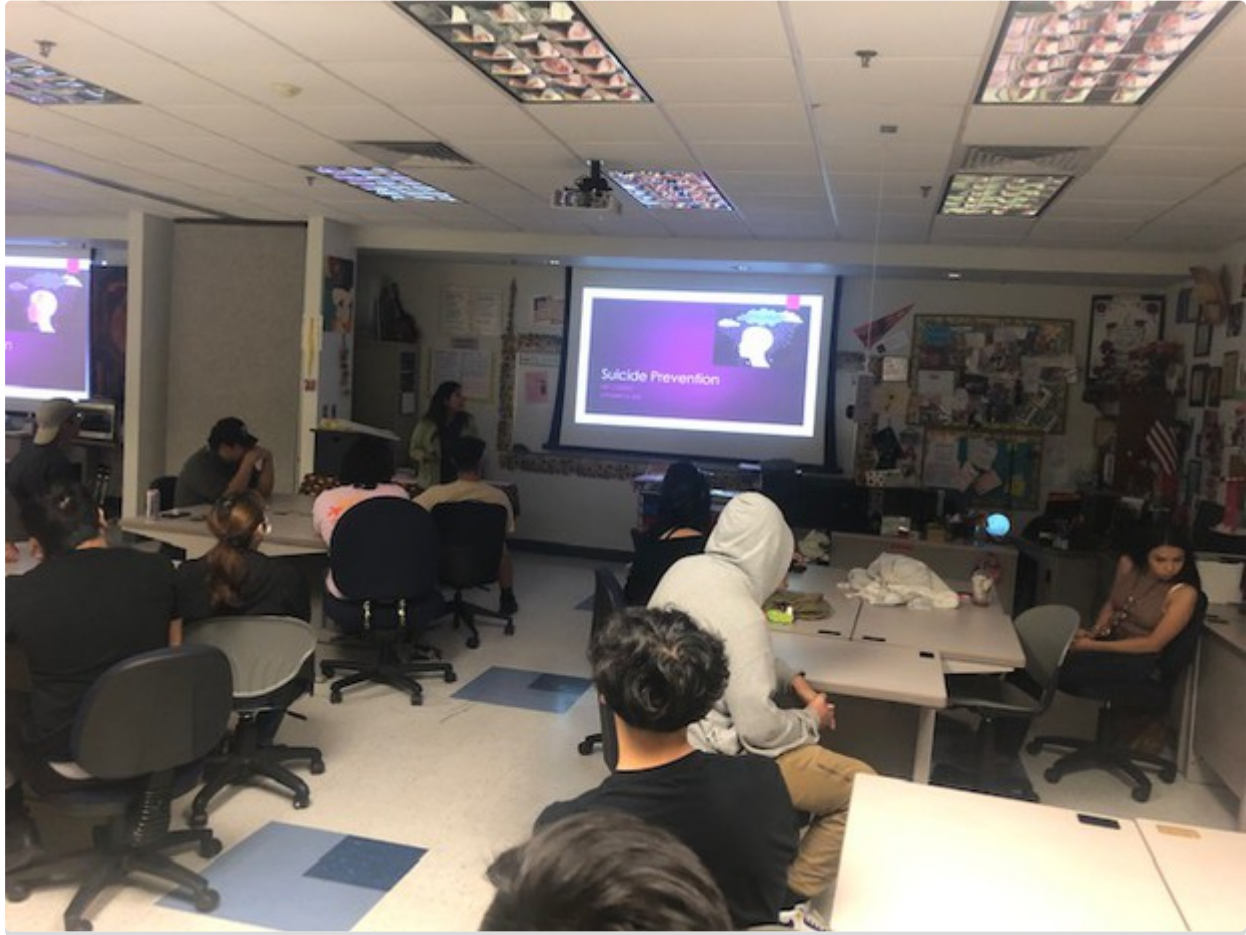

This is one of the many projects she has worked on this semester.

Honey is always excited to go to class and loves getting that hands on experience.
