

11th Grade

AVID Elective Syllabus

The Advancement Via Individual Determination (AVID) Elective is an academic elective course that prepares students for college and career readiness and success, and it is scheduled during the regular school day as a year-long, academic elective course. Each week, students receive instruction that utilizes a rigorous college-preparatory curriculum provided by AVID Center and aligned to the AVID College and Career Readiness Framework. Students engage in learning tasks that incorporate strategies focused on writing, inquiry, collaboration, organization, and reading (WICOR®) to support their academic growth. Additionally, students engage in tutor-facilitated tutorials, academic success skills, and in motivational activities centered around exploring college and career opportunities and developing their student agency.

The 11th grade AVID Elective course is designed to support students in rigorous courses with research skills, financial literacy, and continued skill-building in reading and writing. In addition to the academic focus of the AVID seminar, college-bound activities, methodologies, and tasks that will be undertaken during the junior year to support students when they apply to four-year universities and confirm their postsecondary plans. Students will complete one college essay before beginning senior year and begin to understand the financial aid and scholarship application process.

Weeks at a Glance Terms

The curriculum for each AVID Elective course is divided into four terms. Each term contains nine weeks of curricular units. The full set of instructional units is designed to implement the AVID elective standards for that grade level over the course of the year.

A Week in AVID

There are three types of curricular units: content units, Tutorology® (a collaborative, student-centered tutorial model), and instructional routines, which generally occur on CHOICE Days. AVID lessons utilize strategies to provide rigor and engagement to students as they develop college and career readiness skills.

Monday	Tuesday	Wednesday	Thursday	Friday

AVID® Framework Overview

What Does College and Career Readiness Mean?

No matter what postsecondary path high school graduates choose, students must develop certain essential skills to design their own futures: critical thinking, collaboration, reading, writing, and relationship building. The development of these skills is rooted in belief in self. If students believe they are capable, there is a foundational confidence to learn and a resiliency to overcome setbacks.

Ensure Student Success

Over four decades, we have seen that when school leaders focus on rigorous instruction, insist on access and equity for all students, align work to a common vision, and believe in students' potential, student outcomes improve. In addition to graduating more college-bound and career-ready students, schools are equipping their students with the social and emotional faculties they need for life and career success. By placing students in a learning setting that engages them in rigor with support, opportunities to explore their future pathways, and deliberate instruction in self-management and leadership, students develop the agency and skills that will serve them for life. With AVID, students excel regardless of their circumstances, socioeconomic status, ethnicity, or English proficiency.

What Students Need

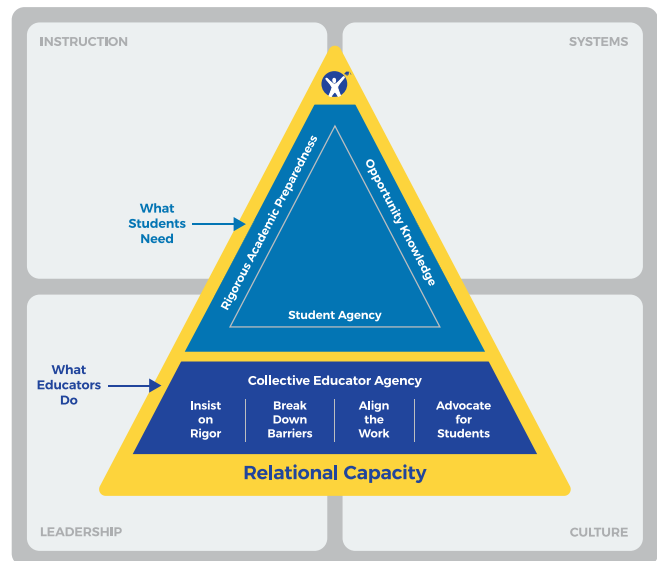

AVID students receive intentional support and mentoring in three major areas that help them become confident individuals who can successfully navigate life and career:

Rigorous Academic Preparedness – Students develop academic skills and can successfully complete rigorous college and career preparatory curriculum and experiences.

Opportunity Knowledge – Students research opportunities, set goals, make choices that support their long-term aspirations, and successfully navigate transitions to the next level.

Student Agency – Students believe in themselves and act intentionally to build relationships, persist through obstacles, and activate their academic, social, emotional, and professional knowledge and skills to reach their potential.

AVID College & Career Readiness Framework

Relational Capacity

AVID defines Relational Capacity as the connection among individuals that develops over time when interactions are built on respect, trust, and authenticity. When educators connect with students and colleagues, and students connect with peers, learning and confidence are activated among all on a campus. All three connections are instrumental in helping students grow to see their capabilities and find their own way.
