

# Poster Printing Options

Teachers can print up to 5 large sheets (35 X 26 inches) each year.

- You are encouraged to print multiple posters on your sheet and fill it to avoid paper waste.
- Be mindful of color saturation and try to avoid solid backgrounds.
- Free posters should be for classroom or school organization use.
- Please allow at least 1 week for printing.
- Send files to Mrs. De Waelsche as an image file (.jpg, .png, .tif) or as a PDF.
- Keep in mind that **low quality images may not enlarge well**. Resolution is important when creating files.
- You are encouraged to create posters in Canva in the actual printing size.
- You are responsible for cutting posters & laminating. Laminator size is only 24 inches wide (at least until old laminator is repaired.)

## Some Layout Options to Consider
