

## THANK YOU!

*From the Black Outside, Inc Family*

*"I enjoyed everything about the outdoors. Just being able to get away from electronics and social media. I think its a great thing to be out here. I enjoyed it all!"*

*- Arshawn (pictured left)*

Our staff, board, and community are so grateful for your partnership, effort, and support in making last Friday a success. Students not only engaged in the outdoors they very much immersed themselves in nature. It was a beautiful sight to see so many youth of color experience nature-based skill building, including a 75-minute scavenger hunt (winners pictured left).

We want to give a special shout-out to Justin Kirk and Joel Alvarado of St. Phillips ECHS for all their behind the scenes work including coordinating logistics for the trip. Also, a big thank you to the staff of Cibolo Nature Center for welcoming the students with open arms and SAWS water supply for the donation of 30 free water bottles.

Students left the trails with stories for a lifetime. We are excited for our next adventure in January.
