Students may attend tutorials with Teachers who are not necessarily on their academic schedule but require the classroom as a resource for completing academic work. All students must be in a supervised classroom during tutorials and may not work independently in any general commons area.

Tutoring is a privilege and a valuable resource. Students who consistently engage in our tutoring program are connected, prepared, and successful in all our learning environments.

**ALL STUDENTS WITH A GRADE OF 80 OR BELOW IN ANY
CLASS, MUST ATTEND TUTORIALS!**
