Specials

YWLAP is thrilled to launch our Digital Learning Platform on Monday, March 30th for our little Bluejays! This platform will serve as a one-stop shop for all things YWLAP during this remote learning experience. Our platform is designed to be self-paced in order to accommodate all families' schedules. Students will have activities to submit, and teachers will provide office hours for live interaction to connect with students, assist students with questions, and provide support.

YWLAP's Digital Learning Platform will also be the centralized stop for parent resources, including family and community engagement news. All of the YWLAP staff has been hard at work creating an engaging, interactive, and simple-to-navigate platform to promote student independence. Parents, please remember the work assigned to the student is meant to be done by the student with the least amount of parent assistance possible. We will be collecting student mastery data to inform lessons and learning experiences for the subsequent weeks.

THIS WEEK'S
Tools You Will Need

Learning Tools

Above are the learning tools students will be utilizing during remote learning. All of the tools are web-based and available for app. download. The girls are familiar with all of the tools mentioned above and have used them in their classes before.

Expectations

During this time, teachers will be checking student mastery via their assignment submissions. Please support your daughter, but do not do the work for her. Her submission will provide the information we need to support her learning. Below are our weekly expectations for all students:

Student assignments are to be submitted for teacher review by NO LATER THAN Friday, by 4:00 p.m., for each subject. Work may be submitted early and does not have to be

submitted at the same time. Remember, this is self-paced, so students should submit as they complete an activity. Below are the due dates for the next four weeks:

- **Friday, April 3rd @ 4:00 p.m.**
- **Friday, April 10th @ 4:00 p.m.**
- **Friday, April 17th @ 4:00 p.m.**
- **Friday, April 24th @ 4:00 p.m.**

Social-Emotional Learning

Social-Emotional Learning is key to child development. Mrs. Clay has created videos for students to continue their social-emotional development. There are also Morning Meeting activities to enjoy. Use that time to develop the whole child. Families also have the opportunity to fill out a self-referral/talk-time electronic form for their daughter. Mrs. Clay will speak with the students individually as needed via Zoom. Please e-mail Mrs. Clay for additional resources as needed for your families (vcclay2@saisd.net).

Connecting

We are here to support our students and families during this new experience. All teachers have daily office hours where they will be hosting *live* meeting rooms via Zoom. During this time, students may connect with their teacher and classmates to ask questions about their work and share their learning. If the office hours do not meet the needs of your schedule, please feel free to reach out to teachers via ClassDojo and request an appointment.

STEAM Challenge

Each week, Ms. Boone will share a STEAM Challenge. This challenge is designed to be a collaborative project between family and child. Remember, STEAM is imaginative, creative, and promotes exploration. Have fun with these challenges!

Resources

The family resource page provides extension programs and resources for parents to utilize at their discretion. The resources are not required parts of the curriculum, but provide additional opportunities for students to connect with core subjects.
