

## TOK (Theory of Knowledge) TASK

### TOK (Theory of Knowledge) Question:

**Does the production of knowledge require accepting conclusions that go beyond the evidence for them?**

**TOPIC IDEA:** History

### **Activity:**

Have students watch the short 2 min video below and then pose the question above. The speaker says at the end that “all things are possible, when chasing your dreams.”. Ask students to think of the question, this statement and all the things Dr Jemison achieved. How do the three correlate with one another??

<https://youtu.be/rvUfEQV7Xfl>

As a facilitator below you will find clarifying statements that can be posed to the class for a whole group or small group discussion.

After about 15-20 minutes of discussion, have students do a self reflection in their journals about their take on the question before and after the whole group discussion. Use possible sentence stems i.e. “At first my thoughts were.....now I feel/take the stance/believe.....” What will they inspire to do?
